HELP US DO!  
AT [SWE.ORG/MEMBER](https://www.swe.org/member)

**I AM**

WITH SWE

**because:**

it's imperative to inspire  
and invest in the next  
generation of women  
in engineering

The Society of Women Engineers recognizes the value educators bring to engineering and STEM disciplines. Many women have become engineers because an educator sparked their interest in engineering and encouraged them to follow their dreams. Join our community so that you have more resources to inspire even more girls and young women.

### Benefits

## SWE MEMBERSHIP

- K-12 outreach resources locally, nationally and internationally
- SWE's blog, All Together
- The Award-winning SWE Magazine
- Continuing Education Units (CEUs)
- Program Development Grants
- Eligibility to be a SWENext Club Advisor
- SWENextEd Facebook Group
- SWENextEd Newsletter
- And more ...

## EASY STEPS TO JOIN

1. Visit [swe.org/join](https://www.swe.org/join).
2. Create a new customer account & login.
3. Select Professional Membership and on the next page K-12 Educator Membership.
4. Pay \$20

Questions? Email [membership@swe.org](mailto:membership@swe.org)

Learn more about SWENext, a free program for students up to the age of 18. SWENext gives students the opportunity to attend engineering events, receive scholarships and more.

Visit [swenext.swe.org](https://www.swenext.swe.org) for information.

**JOIN SWE TODAY** and join us in encouraging more women to become engineers!  
**Which future engineer will you inspire?**
