

## SWENext Clubs' SWEet Creation Challenge

**All SWENext Clubs are invited to participate in the SWEet Creation Challenge!**

**The Challenge:** What new engineering field do you see emerging in the next fifty years?

### **What to do:**

- As a team, make a virtual creation that depicts what the world would be like with this new field and describe any relevant background that led you to your prediction!
- Use your creativity! Visuals can include:
  - Flyer
  - Infographic
  - Comic Strip
  - **Note: Videos are NOT acceptable for this challenge**

### **Tips:**

- Interview your SWENext Clubs counselor
  - How has the club counselor seen science, technology, engineering, or math evolve over their careers?
  - What are some important lessons they learned from this evolution?
- Research new inventions
  - What new inventions are scientists creating today?
  - What inventions are becoming obsolete?
- Investigate society needs
  - What problems are different parts of the world facing?
  - How are these problems being addressed?

### **Requirements:**

1. Have a registered SWENext club
2. Fulfill the prompt through your visual
3. Submit your creation through this [form!](#)
4. **The submissions cycle opens on January 18th and closes on March 18th @11:59 PM CST.**
5. Prizes
  - a. 1st place
    - i. \$100 for SWENext Clubs activities and outreach events
    - ii. Club spotlight in HS newsletter
