

# ONESWE

### Why join SWE as a professional member?

#### YOUR COMMUNITY

Your community is critical to your persistence in engineering. At SWE, you join a community of 43,000+ members that empower you to succeed. As a member, you gain access to a diverse, global network of engineers and allies who are with you at each stage of your engineering journey.

#### LEADERSHIP DEVELOPMENT

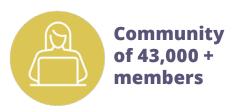

Leverage SWE events and opportunities to become a stronger professional and leader. SWE offers educational sessions, pivotal networking opportunities, and career fairs at both our **WE Annual Conference** (the largest gathering of women engineers and allies) and at our **WE Local events** (smaller gatherings across the globe). Hone your capacity as a leader by getting involved with your local SWE Section or Affiliate, serving on a SWE Committee, or volunteering for a K-12 Outreach event.

#### **EDUCATION & INSIGHT**

As a SWE member, you are connected to free educational resources and groundbreaking insights. Access SWE thought-leadership and earn CEUs through our Live Web Events, On-Demand Presentations, and e-Learning courses through SWE's **Advance Learning Center**. Read and listen to the latest diversity and inclusion practices with SWE's daily digital blog, *All Together*, SWE's **award-winning magazine**, *SWE Magazine*, and SWE's **podcast series**, Diverse. SWE's **research site** also provides current, original research on the state of women in engineering.

## ADVANCEMENT & RECOGNITION

SWE recognizes emerging, established, and visionary leaders within the engineering and technology profession through our **Awards and Recognition Program** at both the Annual and WE Local Conferences.

As a member, you have unique access to the recognition and advancement achieved through our premier awards events.

#### **SWE ADVOCACY**

As a SWE member, you join with the leading advocacy voice for women in the profession. SWE advocates for girls through K-12 outreach programs, for the full implementation of Title IX in federally funded programs, and for equitable and family friendly practices within the STEM workforce. Given the gender disparity within the engineering and technology field, it is imperative that SWE leads advocacy efforts to work towards parity.

#### **CAREER OPPORTUNITIES**

Post your resume and find your next position through the job board on SWE's **Online Career Center** or SWE's **virtual career fair** (held each spring). Are you returning to the workforce after a career break? Check-out the extensive return to work opportunities offered by partnering organizations in the **STEM Re-entry Task Force**.

#### MENTOR NETWORK

The SWE **Mentor Network** is a private network for only SWE members that helps facilitate mentoring relationships. SWE members at all levels are able to offer mentoring services, receive mentoring, or even act as both a mentor and mentee.
