WHO:

Scholarships available to freshman through graduate students enrolled in ABET accredited programs globally as well as Washington Accord accredited programs in select states in India

QUICK TIPS

- SWE judges applications based on four main criteria – academic preparation, leadership and activities, work experience, and interest in engineering. **Make sure to highlight these areas on your application!**
- Who is eligible? **You're eligible if you are:**
 - A person who identifies as a woman
 - An incoming freshman through graduate student
 - Studying engineering full-time (exceptions made for re-entry/non-traditional students)
 - Enrolled in an ABET-accredited program OR Enrolled in a Washington Accord accredited program in Tamil Nadu or Maharashtra, India
 - A community college, university, or re-reentry/non-traditional student

BEST PRACTICES FOR WRITING YOUR ESSAY:

- DON'T** focus on what an engineer does in an abstract way.
- DON'T** focus on things you've done that may not have any relation to engineering.
- DON'T** jump around from topic to topic without any structure.
- DON'T** make grammar mistakes.
- DO** tell us why you want to be an engineer and what you would do!
- DO** tell us about all the great things you've done, while highlighting activities and accomplishments related to STEM areas.
- DO** organize your thoughts and make connections between topics.
- DO** take the time to allow someone else to proofread your essay.
