

INSPIRING HIGH SCHOOL STUDENTS TO PURSUE CAREERS IN ENGINEERING AND TECHNOLOGY

SWENext High School Leadership Academy (SHLA) provides STEM-interested high school students across the globe the opportunity to experience the SWE community first-hand through online networking, coaching, and mentoring.

SHLA provides year-round programming, giving high school students the tools and resources to pursue engineering—helping them to understand the ins and outs of different engineering disciplines, navigate college processes and decisions, and prepare for leadership roles now and in the future.

SHLA provides leadership training and development opportunities in five key program tracks:

College Preparation

STEM pathways

Leadership

Self-Development

Inclusion and Cultural Awareness

For FY22, we've had over **1,224** views so far and **3,108** total views since FY21

92%

of registrants were satisfied with the course content

81% to 87%

increase in STEM confidence of virtual program participants

92%

of registrants were satisfied with the quality of the program's speakers

SHLA LEARNING METHODS

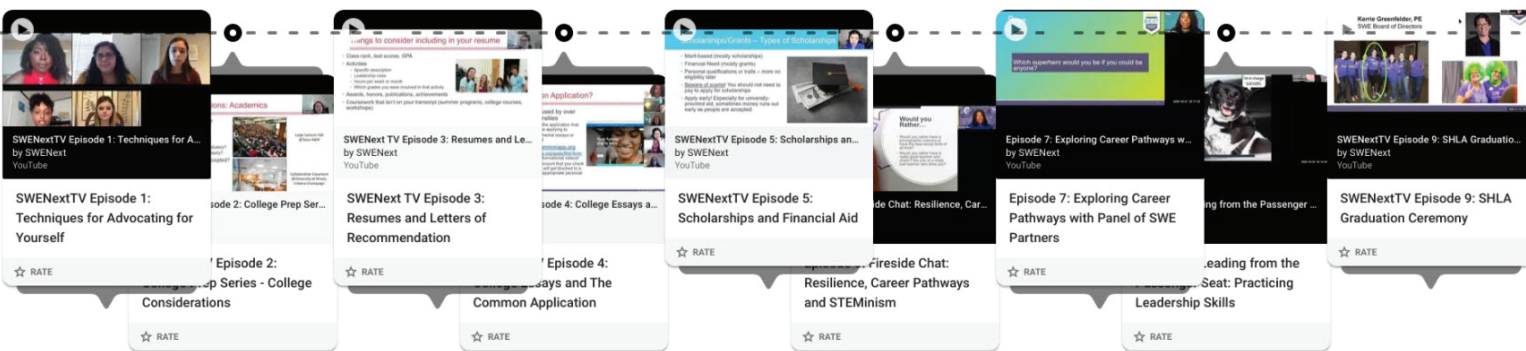

SWENext TV offers live learning and on-demand content based on the key program tracks. All on-demand content is hosted on the SWENext YouTube channel, along with additional resources and materials for students.

[Access SWENext TV Content Here](#)

SWENext Connect allows students to connect in person and online with peers and mentors from our SWE community with expertise in various fields of engineering.
